## SIMPLE SOLUTIONS BUFFET SYSTEM™

Put the focus back on the food in your buffet display and assemble your cold well unit with ease, using TableCraft's new Simple Solutions™ buffet system; featuring a full range of bowls and templates that fit any industry standard size cold well. No matter what NSF®7 unit you choose, our new Simple Solutions™ features all the pieces needed to ensure a foolproof fit! Contemporary bowl design allows the vessel to sit perfectly side-by-side within the perforated templates, which are cut to fit each specific unit. This seamlessly tailored fit ensures that no food falls through gaps within your display and keeps the air at optimal cold-holding temperatures.

- Perforated aluminum templates are pre-measured to fit the following units: Alto-Shaam CW-Series, Atlas RM-Series, Atlas RM-HP-Series, Delfield N8100B-Series, Hatco CWB-Series, Hatco HCWBI-Series, Randell 9900SCA-Series, Vollrath 36400-Series, Vollrath FAC-Series, Wells RCP-Series, Wells RCP-ST-Series
- Custom sizes also available. Contact your dealer for custom display options or pick from one of our preset kits to drop-in and go! The options are endless!
- The template basket system creates a clean, continuous presentation that cradles the bowls, so they won't accidentally fall through or spill into the well during changeouts. No adapter bars needed!
- The perforated construction also allows for proper airflow within the cold well unit; surrounding the cold-holding vessels with direct air—maintaining proper cold-holding food temperatures.
- All items are available as individual pieces as well as complete kits; allowing for convenient ordering, customizing and arranging.
- Cast aluminum offers a virtually indestructible design, available in 23 colorful options.
- Our DuraCoat™ cast aluminum coating is NSF® Listed, dishwasher safe, and safe for cold food as low as temperatures of -20°F. Not intended for use in hot wells or steam tables.

# TableCraft Recommended Care & Use for Your Products

## Acrylic

For best results, we recommend to hand wash with a soft cloth and mild detergent, then towel dry. Do not wash with harsh or abrasive cleaners. Do not put in the dishwasher. Not microwave or oven safe.

## Melamine

Dishwasher safe. Due to the size of some pieces, hand washing is best. We recommend to use a soft cloth and mild detergent, then towel dry. Not microwave or oven safe. Safe for temperatures up to 212°F/100°C.

## Enamelware - Vitreous Porcelain Enamel Coated Steel

Enamelware is a time-honored traditional cooking and serving vessel that has been used for centuries in many ways. A good quality enamelware product can last for years under the right conditions and cared for correctly. Just like any other porcelain piece in the market, porcelain enamel coated steel is not chip resistant and can become worn over the years. The steel substrate of the products is incredibly strong; however the porcelain coating is susceptible to chipping if handled roughly or repeatedly dropped on a hard surface.

To extend the life of your enamelware products, we recommend that you wash before use, do not use abrasive cleaning or scouring pads, do not place empty enamelware on heating element or allow to boil dry on induction unit, gas or electric hobs. Also, before use, coat with a light coating of cooking oil to protect the enamelware from staining. After use, to remove baked on food or stains, soak in warm soapy water and wash gently with non-abrasive liquid detergent.

Enamelware products are commercial dishwasher safe (high & low temp), induction and freezer safe, and safe for direct flame. Not microwave safe.

## Porcelain

All pieces are dishwasher and microwave safe. We recommend to use a soft cloth and mild detergent, then towel dry.

## Recycled Green Glass

Dishwasher safe. Due to the nature of recycled glass, it is common to notice bubbles and small lines in the finished product. These characteristics are natural qualities of recycled glass — no two pieces are exactly alike. Not microwave or oven safe.

## Stainless Steel

Dishwasher safe. For best results, we recommend to hand wash with a soft cloth and mild detergent, then towel dry immediately to maximize their beauty. Do not wash with harsh or abrasive cleaners. Do not allow product to soak in water for extended periods of time (will prevent rust). Not microwave safe.

## Galvanized Steel

Hand wash with a soft cloth and mild detergent, then towel dry. Do not wash with harsh or abrasive cleaners. Do not allow product to soak in water for extended periods of time (will prevent rust). Not microwave safe.

## Black Metal / Chrome Plated Baskets or Racks

Hand wash with a soft cloth and mild detergent, then towel dry. Do not wash with harsh or abrasive cleaners. Do not put in the dishwasher.

## Polypropylene Baskets

Dishwasher safe (low temperature). Not microwave or oven safe.

## Ridal Collection™ Baskets

Dishwasher safe (low temperature). Microwaveable for limited reheat use. Not oven safe.

## Willow

For best results, we recommend to hand wash with a soft cloth and mild detergent, then towel dry. Do not wash with harsh or abrasive cleaners. Do not put in the dishwasher.

## Polyethylene/Plastic Baskets

Dishwasher safe (low temperature), microwave safe (for re-heat only) and heat lamp safe up to 150°F/65°C.

## Polyethylene/Plastic Bottles

Dishwasher safe (low temperature). Not microwave safe.

## Wood Products (bread boards, salad bowls, pepper mills, Acacia, Ashwood, Bamboo, etc.)

Hand wash with a soft cloth and mild detergent, then towel dry. Do not wash with harsh or abrasive cleaners. Do not put in the dishwasher. Do not let product soak in water for extended periods of time (prevents splitting).

### ETL® Listing

CW40164, CW40162, CW40160, CW30159, CW30157, CW30158. The ETL Listed Mark is proof of product compliance (electrical, gas and other safety standards) to North America safety standards.

### NSF® Listing

This catalog was printed January 2020. Item listing is constantly updated, please see NSF®.org for the latest listing information.

### Stainless Steel (Tri-Ply)

Stainless Steel cookware is dishwasher safe. However, we recommend hand-drying the cookware immediately after the rinse cycle or hand-washing and drying to preserve the original finish. Prolonged exposure to high heat settings may cause your cookware to discolor. To recondition your cookware or to remove stubborn spots and stains, use a nonabrasive pad and quality Stainless Steel cleanser such as Bar Keepers Friend®.

### Cast Iron

Our line of Cast Iron is pre-seasoned, however it is still important to seal the surface of cast iron through a process called "seasoning". This makes the cookware less likely to stick, protects it from corrosion and rust, and prevents food from taking on metallic flavors. With proper care, a well seasoned pan will only get better with time and last for years. Wash the pan thoroughly in hot soapy water, then hand dry immediately. Using a cloth or paper towel, grease the pan thoroughly with a thin coating of vegetable oil or melted vegetable shortening. Be sure to coat the entire surface, including all corners. Heat the oven to 350°F (176°C). Place the cookware in the oven for 1 hour. Remove while hot and allow to cool to room temperature. Wipe away any excess oil, being careful not to scrub clean, then store. To preserve the seasoned finish, cast iron must be cleaned differently from other types of cookware. Cast Iron should never be placed inside a dishwasher or scrubbed with scouring pads or steel wool. Instead, wipe the pan clean with a sponge or dishcloth in hot water, without detergent. Any residue may be removed by boiling a little salt and vinegar in the pan, or by rubbing with a paper towel and coarse salt. Hand dry immediately after washing and brush with a thin coating of vegetable oil before storing. If stacking pans, place a paper towel between them. Pans should be seasoned from time to time when needed. Cast iron cookware is heavy and care should be taken when lifting; where available, use side handles for extra stability. Always use heat protection gloves as handles will become hot. Allow cookware to cool before cleaning. Cast Iron is not microwave safe.

### Cast Iron

#### Rust? Don't Panic, it's not broken.

Without protective seasoning iron can rust. It's really easy to fix. Scour the rust, rinse, dry, and rub with a little vegetable oil. If problem persists, you will need to thoroughly remove all rust and follow our re-seasoning instructions.

### Cast Aluminum–Natural

The "Naturals" are made of a food safe cast aluminum without coating and are NSF® approved. These items can endure temperatures from –20 up to 450°F. For best results, we recommend to hand wash with a soft cloth, then towel dry immediately to maximize their beauty. Staining will occur if acidic foods are put into the natural products.

### Cold Serving Cast Aluminum–Coated

All Coated Cast Aluminum products are NSF® approved and will endure temperatures from –20 up to 195°F. (DO NOT BAKE in the coated cast aluminum products). If a defect in the coating appears, such as peeling or chipping, the product must be taken out of service immediately and repaired or replaced. The intended purpose of the color coated products is for cold serving & display only. They are not to be used in the preparation of food. Some environmental uses are, but not limited to, buffet lines, catered environments, and in food display cases. Do not cut directly on the products, as this will cause the coating to scratch. Do not put any of the products in an oven, on a stove top, under a heat lamp or in any other condition where the temperature exceeds 195°F. Washing by hand is recommended, but when using a non-caustic detergent, the coating is dishwasher safe. Do not clean with scouring pads. Only use nylon or sponge pads. Regular dish washing will dull the coating. Do not use metal utensils on the color coated products. NOTE: Staining of all color coated products will occur especially if used with acidic foods. The lighter (white, sky blue, and gray) colors are more likely to show stains than darker colors. Staining of products is not covered under warranty.
