Textured Tumblers

In our increasingly complex world, textured tumblers offer us a window into simpler times. Perfectly classic and timeless in style, these tumblers remind us of outings to the pizza parlor, mini golf, the deli around the corner where we'd gather with friends over fun, food and drink. The textured surface helps hide fingerprints and scratches, too!

Reusable To-Go Tumblers

Eliminate Disposable Drinkware

Sustainable | Practical | Budget-Saving

Disposable drinkware, lids and straws create a continuous and profound cycle of waste and spending. G.E.T. eliminates this wasteful cycle by offering operators a refillable keeper cup option made with recyclable plastic and available as a set with a reusable lid and straw!

Better yet, switching to a refillable keeper cup option can pay for itself in as little as a week*, freeing up your budget for other projects.

Sustainable

Eliminate the constant waste created by disposable drinkware

Practical

Implement in 3 Easy Steps:

1. Sell or give to diners for keeps
2. Diners bring their refillable cups back to dining areas
3. Diners pay for their drink, usually at a discount

Budget-Saving

Stop the never-ending spending on replenishing disposables and waste-hauling fees

From Inspiration-to-Table, It's Art

Handcrafted by skilled artisans in Mexico, each Bugambilia® piece begins life as an artist's sketch with the sole purpose of building exceptional guest experiences with exquisite displayware.

From casting to coating, Bugambilia® blooms in the caring hands of its artisan creators before finding its NSF-certified place in your foodservice operation.

Unparalleled In-Service Life

Products built with true craftsmanship always offer the best in-service life, and Bugambilia® is no different. In fact, the resin adhesion process was so painstakingly created, it's patented.

The Best Operational Efficiency

Bugambilia® keeps up with your operational needs because of its expert craftsmanship. The cast aluminum body and resin coating offer the best temperature retention, keeping your food within the temperature safety zone longer than stainless steel pans and even other similar resin-coated products.

Customized for You

Even better, because each piece is individually crafted, creating custom pieces is a breeze! Partner with us to develop unique pieces and tell your brand story the way only you can.

How Does the Fit Perfect™ System Work?

ADAPTER BARS

These patent-pending bars securely lock Fit Perfect™ pans into the majority of cold wells.

You'll need adapter bars to build your layout's main support system

GAP BARS

Because not all wells are the same length, you may need gap bars to fill any spaces in your layout.

Wider than adapter bars, gap bars help seal wells to prevent cold air from escaping.

1

Set Up Your Adapter Bars

Once you know your layout, set your adapter bars into your well widthwise, allowing enough space in between to match the width of your food pans.

NOTE: Fit Perfect™ works with the majority of industry cold wells. For wells with interior width range of 19.75" to 20", use CIHSPC21-WW adapter bar. For wells with interior width range of 11.88" to 12", use CIHADP12-WW.

2

Set Your Food Pans in Place

Place the lip of the Fit Perfect™ food pan over the ridge on the adapter bars to lock food pans in place.

❄️ PRO TIP Pre-chill empty Bugambilia® resin-coated aluminum products in your walk-in when not in use to maintain food's freshness and reduce waste.

3

Mind the Gaps

If a layout leaves any uncovered spaces, just fill them in with the gap bar to keep cold air from escaping and complete the seamless look.

NOTE: Not all standard wells are the same length. Knowing the overall length of your well will help to determine what size gap bar you will need.

Gap bars are available in 1", 1.5", 2", 2.5", and 3" widths

Fit Perfect™ Food Pan Sizes

“Bugambilia® is by far the most durable food safe container on the market today. The variety of shapes, sizes, and colors allow us to be creative as well as cost-effective with volume production portion control with salad choices. All the items we carry are heavily used on our banquet events, and we have a ton of banquets. Their strongest point is the fact of wear and tear. I can truly say at this point we have reached our return on our initial investment.”

Properly caring for your G.E.T. products rewards you with the best possible service life, keeping your replacement costs as low as possible.

Contact G.E.T. customer service by phone between 8:30 a.m. and 5:30 p.m. CST M-F with any questions: (800) 727-4500. Email us any time at info@get-melamine.com.

Always add water or oil before heating - never heat empty

Always use soft cloths, sponges or brushes to scrub - never use harsh scour pads, steel wool or other similarly harsh materials

Do not overload dish racks - properly space items for optimal cleaning

Don't stack one Heiss directly on top of another when storing: Flip your lid! Turn the lid upside-down, place another Heiss on top of the lid, then repeat until you're four tall

Always protect your hands with oven mitts when handling hot Heiss, including lids

Never use with granulated dish detergent

Never use cleaning products that contain bleach

Heiss is safe to wash in a hi-temp or low-temp commercial dishwasher

Pre-soak often (every other week) for at least 2 hours or overnight. Recommend testing on one vessel prior to pre-soaking all inventory to ensure no discoloration occurs
