HBH750 Series Eclipse™ High-Performance Blender

AVAILABILITY:

HBH750

120V

230V

UNIQUE FEATURES

Eclipse® Blender

QuietBlend™ Technology - Greatly reduces motor noise and works with the advanced Quiet Shield™ enclosure to lower sound to conversation level.

Compact Size - Blender width of 8.5" / 22cm fits neatly on top of counter. The Quiet Shield™ enclosure opens to a maximum height of just 22" / 56 cm.

Powerful Motor - 3 peak Hp† motor with a special airflow design that helps prevent motor overheating and helps extend motor life.

Pre-programmed Cycles - Choose from 5 buttons for popular drinks and over 100 additional cycles. Custom programs are available and easily downloaded with a memory card.

Jar Pad Sensor - Turns off motor when container is not in place to reduce grinding and "wear and tear" from operator misuse (120V only).

Quiet Shield™ Sensor - Turns off motor when operator lifts Quiet Shield™ (can be disabled on 120V .)

Lifetime Warranty on Motor Drive Coupling and Stainless Steel Blade - Ensures that the parts are free from defects in material and workmanship for the life of the part.

Wave~Action® System - Unique container design continually forces mixture down into the blades for a super-creamy drink profile every time.

Overheat Protection - Display alerts operator if motor overheats and provides directions to run a quick cool-down cycle.

HBH850 Series Summit® High-Performance Blender

AVAILABILITY:

HBH850

120V

230V

UNIQUE FEATURES

Summit® Blender

Auto Blend "One Touch Sensor Blending" - Patent-pending technology continuously monitors blender's power usage and speed to determine when the perfect drink consistency is achieved.

Hundreds of Pre-programmed Cycles - Reduces the need to select different cycles for different drinks to free up decision-making time.

Quiet Shield™ Sound Enclosure - reduces blender noise.

Super-Creamy Drink Profile - The Wave~Action® System, along with speed and blade design, break down ice from a granita texture to a creamy drink profile.

Cavitation Control - Detects when cavitation occurs and prompts the operator to add more liquid. Keeps the operator from spending time watching the blender and from serving a bad drink.

Airflow Baffle - Constantly circulates cool air around the motor for back-to-back blending and longer blender life.

Jar Pad Sensor - Turns off motor when container is not in place to reduce grinding and "wear and tear" from misuse. (120V only)

Quiet Shield™ Sensor - turns off motor when operator lifts Quiet Shield (230V only).

Specifications:

Standard: Unit comes with base, one 64 oz./1.8 L stackable polycarbonate container, sealing gasket, Quiet Shield™ sound enclosure.

HBS1400/1200 Series Revolution® Ice Shaver / Blender

AVAILABILITY:

HBS1400/HBS1200

120V

230V

UNIQUE FEATURES

Revolution® Ice Shaver/Blender

Revolution® Portion System - For maximum accuracy, this unique ice portioning system counts the number of times the agitator passes the shaver blade. Regardless of the motor load, the correct amount of ice comes out every time!

Systems that calculate portions by time or weight may not be delivering consistent drink quality to your customers. Time systems don't reliably shave the right amount of ice because the motor speed will vary with the load (the motor may spin more slowly when the ice hopper is full). Systems that rely on just the weight of ice can be inaccurate during blending because of container movement. The Revolution® Portion System eliminates these concerns, delivering the right amount of ice every time.

Double-Wall Hopper - Insulated for quiet operation and to keep ice cold.

Sensor Technology - Hopper sensor prevents operation when lid is not in place. Drain sensor indicates if water is backed up in the drain. This alerts the operator to check the drain line and can prevent a messy water back-up.

3 Hp Blender Motor - Powerful, heavy-duty, and built to satisfy the demands of the busiest bars.

Automatic Cycle Buttons - Operators select serving size and number of servings for precise results.

Specifications:

Standard: Unit comes with base, ice chute, 2 piece hopper with lid (5 gallon/19 L), 64 oz./1.8 L polycarbonate container, and leveling feet

Controls: Touchpad

Motors: 3 Hp blender, 1/4 Hp shaver

Weight: 71 lbs / 32.2 kg (shipping)

Warranty: 2 years parts and labor or 25,000 cycles

BIC2000 Series SmartServe® Blend-in-Cup with Self-Rinsing

AVAILABILITY:

BIC2000

UNIQUE FEATURES

SmartServe® Blend-In-Cup Machine

Blends in your disposable cups - Everything you put into the cup is served to the customer, no more wasted ingredients left in blender jars.

No Dispensing - The step of pouring from the blender jar is completely eliminated.

Simple process - Dispense ingredients into cup, insert cup and press "start", serve the customer. Equipment automatically rinses itself.

Water Savings - Rinses with as little as 10 oz./300 mL of water. Compared with manual cleaning, SmartServe™ can cut water usage by 8X.

Labor Saving - SmartServe™ has an output of more than a drink a minute.

Space/Jar Saving - Requires just approximately 7.5" of counter width plus no more blender jars to store.

Consistent Output - Blends using a perfectly controlled and consistent process every time. Blend parameters can be changed easily via USB port.

Specifications:

Controls: Touchpad with USB port for program changes

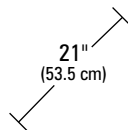

Weight: 90 lbs / 22.7 kg (shipping)

Warranty: 1 year**

**Please contact your local representative for detailed warranty information.

Step 1:

Add ingredients to your cup. Can include nugget ice, frozen fruit packets, fruit concentrate, etc.

Step 2:

Insert cup into machine, press start. SmartServe™ automatically blends your drink to the perfect consistency.

Step 3:

After the blend cycle is complete, serve blended drink to customer. SmartServe™ then automatically rinses itself to prepare for the next drink.

Flexibility:

SmartServe™ can be customized via a USB port to accommodate your cups and menu items.

Ease of use:

Different control panel covers can limit the number of keys the operator sees, while allowing management access to all functions.

Easy to install:

Accepts standard water line for rinse water and standard PVC drain line.

HMD200 / HMD400 Series Drink Mixers Single & Triple Spindle

AVAILABILITY:

HMD200

120V

230V

AVAILABILITY:

HMD400

120V

230V

UNIQUE FEATURES

Single-Spindle Mixer

Versatile Drink and Food Prep - Great for everything from mixing ice cream shakes to "flashing" bar drinks to blending eggs, pancake, and waffle batter.

Performance - More powerful 1/3 Hp motor mixes up to twice as fast, so customers don't have to wait.

Precision Motor - The motor is balanced to minimize vibration. Built to last with sealed, permanently lubricated ball bearings.

Two-Way Motor Activation - Operators can start and stop mixing action by inserting the cup into the cup guide, or by using the pulse switch on the top of the mixer (pulse is 120V only).

Specifications:

Standard: Unit comes with base, motor, spindle, solid agitator, and stainless steel cup.

Controls: 3-speed rocker switch and unique pulse switch (120V only)

Motor: 1/3 Hp

Weight: 15.4 lbs / 7.0 kg (shipping)

Warranty: 1 year parts & labor

120V Specifications:

120V~, 60 HZ, 300W

230V Specifications:

HMD200-CE

HMD200-UK

HMD200-CCC

220-240V~, 50-60 HZ, 300W

Triple-Spindle Mixer

Optimum Output - The ideal choice for high-volume milkshake prep.

Performance - 1/3 Hp motors mix up to twice as fast, to maximize service and minimize the wait.

3 Separate Motors - Each motor works independently and has its own power switch.

Precision Motors - Each motor is individually balanced to minimize vibration. All three motors are built to last with sealed, permanently lubricated ball bearings.

Two-Way Motor Activation - Operators can start and stop mixing action by inserting the cup into the cup guide, or by using the pulse switch on the top of the mixer (pulse is 120V only).

Specifications:

Standard: Unit comes with base, 3 motors, 3 spindles, 3 solid agitators, and 3 stainless steel cups.

Controls: 3-speed rocker switch and unique pulse switches (120V only)

Motors: 1/3 Hp on each motor

Weight: 37 lbs / 16.783 kg (shipping)

Warranty: 1 year parts & labor

230V Specifications:

HMD400-CE

HMD400-UK

HMD400-CCC

220-240V~, 50-60 HZ, 900W

3 speed switch plus unique fingertip-action pulse switch that stops and starts the motor (pulse is 120V only)

Operator can easily replace motor in minutes

Removable cup guide pulls out for easy dishwasher cleanup

A Hamilton Beach Commercial mixer is mounted on a wall. The mixer is dark grey with a stainless steel mixing arm and a vertical stainless steel support. A silver label on the top of the mixer reads "Hamilton Beach" and "COMMERCIAL". The mixer is mounted on a dark grey metal plate. The background is a blurred stainless steel kitchen environment.

HMD300 Series Wall Mount Drink Mixer

AVAILABILITY:

HMD300

120V

230V

UNIQUE FEATURES

Wall-Mount Single-Spindle Mixer

Powerful 1/3 Hp Motor - Built to last with permanently sealed ball bearings. Can be replaced by operator to avoid downtime.

Easy Wall Mount - All hardware included. Plugs into standard outlet.

Two-Way Motor Activation - Operators can start and stop mixing action by inserting the cup into the cup guide, or by using the pulse switch on the top of the mixer (120V only).

Speed Switch - Offers flexibility for different menu items.

Easy To Clean - Removable cup guide and cup rest.

Built To Last - Heavy-duty, die cast, stainless steel construction.

Versatile Drink and Food Prep - Great for everything from mixing ice cream shakes to "flashing" bar drinks to blending eggs, pancake, and waffle batter.

With two-way motor activation, operators can start and stop mixing action by inserting the cup into the cup guide, or by using the pulse switch on the top of the mixer (120V only)

Speed switch offers flexibility for different menu items

Removable cup guide pulls out for easy dishwasher cleanup.

Specifications:

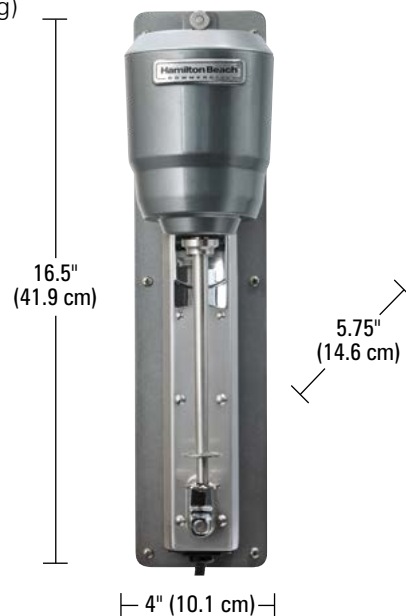

Standard: Unit comes with base, all mounting hardware, spindle with 990043600 agitator and stainless-steel cup

Controls: On/off pulse switch (120V only); High/Low switch

WARNING

Cut Hazard
Always use collar when operating with paper cup. Always use shield when mixing. Failure to follow these instructions can result in broken bones or cuts. *Inspect agitator daily for wear.

Do not put spoon or other utensils in cup when mixing. Agitator will spin if timer is set to FP and no foot pedal is connected. Always connect a foot pedal before setting timer to FP. **Replace agitator every 30 days.

UNIQUE FEATURES

Mix 'n Chill®

One-Hand Activation - To start the motor, put the filled cup under the mixing shaft and push.

Performance - 3/4 Hp motor provides heavy-duty mixing action.

Easy To Clean - Stainless steel pan removes easily without the use of tools and is dishwasher safe.

Consistent Results - Pre-programmed cycles deliver consistent mixing results regardless of the operator.

User Friendly - Contoured splash shield reduces discomfort on the operator's wrist and easily removes for cleaning.

Dependability - Ice cream companies and restaurateurs worldwide consider this drink mixer the standard because of its dependable performance.

Specifications:

Standard: Unit comes with base, spindle with 929 agitator, splash shield, and removable stainless steel pan

Controls: On/off rocker switch; rotary dial with variable speed selections and pre-programmed cycles

Motor: 3/4 Hp

Weight: 33.6 lbs / 15.2 kg (shipping)

Warranty: 1 year parts & labor

Stainless steel pan is easily removed for easy cleanup

929 agitator maximizes mixing performance for hard- and soft-serve ice cream and is especially good for candy mix-ins

See page 51 for additional agitator choices

HMI200 Series Immersion Blender Heavy Duty

HMI200

AVAILABILITY:

UNIQUE FEATURES

Immersion Blender

Heavy Duty - Long-life motor construction and stainless steel chopping attachment designed for foodservice applications.

Flexibility - Detachable chopping attachment plus two speeds give professional kitchens the flexibility they need to purée soups and sauces right in the pan, whip egg whites, cream butters & mix batters with ease.

Stainless Steel 9"/23 cm Shaft - Not only does the thick 9"/23 cm shaft reach into deep pots and bowls, it detaches for easy cleaning.

Innovative Blade Guard - Keeps prep areas neat and saves time by reducing messy splashing and clogging.

Double-Insulated - With two-conductor cord for easier use and storage.

Specifications:

Standard: Motor unit, detachable 9"/23 cm chopping shaft and cutting blades

Controls: 2-speed switch

Motor: 175 Watts

Weight: 4.2 lbs / 1.9 kg (shipping)

Warranty: 1 year parts & labor

Blade guard reduces splashing and allows mix to pass through without clogging

Built-in storage hook for easy hanging and storage on wire racks

Chopping attachment detaches easily for dishwasher cleanup and is autoclavable for quick sterilization

Four blades with five cutting edges quickly cut through ingredients for professional results every time

120V Specifications:

120V~, 60 HZ, 175W

230V Specifications:

HMI200-CE
HMI200-UK
HMI200-CCC

RoHS COMPLIANT

AVAILABILITY:

HBF1100S 120V 230V

UNIQUE FEATURES

Saves Prep Time - From its powerful 3.5 Hp motor to its custom-designed blade and large-capacity container, the HBF1100S is fully equipped to produce great results in a fraction of the time.

Unique Chop Function - pulses the blades between low speed and chef-selected blend speed. This pulsing action keeps foods with even a small amount of liquid moving inside the jar. Perfect for hummus, salsa, smoothies, and salad dressings.

Custom Program Buttons - offer the operator a large degree of custom blending and precision control. They keep recipes consistent, freeing up valuable time. As the menu changes, program cycles are easily updated by inserting a memory card.

Variable Speed Dial - allows the blender to operate from a very low speed (perfect for salad dressings, chopping, and grinding) to a high speed that quickly creates a velvety smooth puree.

Preset Timer Buttons - Operators are free to perform other kitchen tasks by selecting from 4 timer buttons, then pressing their choice of HIGH, VARIABLE, CHOP, or PULSE.

Interlock Lid Function (HBF1100S) - Designed with safety in mind, the interlock function with indicator light ensures that the blender won't start until the jar and lid are securely in place.

Low-Profile Design - offers convenient access to container on any kitchen countertop. Also makes it easy to move the blender from one kitchen station to another.

Heavy-Duty Construction - Built for long-lasting performance in the world's busiest kitchens.

Precision-Control Touchpad
Equipped with a wide variety of controls to provide multiple possibilities for every kitchen

HBF1100S has Transparent Lid with 120 ml/4 oz. Dosing Cup
Gives chefs optimal control over food texture and consistency

78/80 Series Dishers Heavy Duty

78

Dishers

Heavy-Duty Stainless Steel - The bowl, thumb lever, and spring are made of stainless steel for long life and easy cleanup in the dishwasher.

Heavy-Duty Spring Action - The heavy-duty stainless steel spring allows for ease of operation and long-lasting durability.

Color-Coded Handles - Designed for instant identification and improved service, the color-coded handles let you streamline your foodservice operation. Bright, identifiable colors help maintain portion control, and make disher size selection quick and easy.

Specifications:

Warranty: 1 year parts & labor

80

Deluxe Dishers

80 dishers have all the features of the 78 line plus these extras:

Pan Rest™ Feature - These convenient notches let dishers rest on the edge of pans to help prevent slippage that could slow down service.

Ergonomic Grip - Handles are shaped for a comfortable grip that helps reduce hand and arm fatigue.

Imprinted Capacity - With the capacity clearly molded onto each handle, there's never a question which size disher is being used.

Specifications:

Warranty: 2 year parts & labor

UNIQUE FEATURES

Pan Rest™ feature on handle holds disher in place

Dishers are sold in colorful, easy-to-identify packaging

Model 932 is built with heavy-duty gears for years of durability

932's juice collector cup swings out for easy access

96700 includes 3 stainless steel reinforced reamers: 1 for lemons and limes, 1 for oranges, and 1 for grapefruit

932 / 96700 / HWG800 Series

Juicers

Manual or Motorized

932

Manual Citrus Juicer

Dependability - Considered the standard worldwide because of its hard-working, dependable performance and classic looks.

Flexibility - Designed to extract pure citrus juice from lemons, limes, oranges, and grapefruit.

Maximum Juice Extraction - The extractor arm exerts up to 2,000 lbs. of force to ensure maximum juice output with minimum skin oil and pulp residue.

Strainer Cone and Funnel - Remove for easy cleaning.

Acid-Resistant Finish - The metal components, as well as the enamel finish, resist wear and tear from exposure to citrus acids.

Specifications:

Standard: Unit comes with base, strainer cone, funnel, swing-out juice collector cup, and Sure Grip™ feet

Weight: 13.2 lbs / 6 kg (shipping)

Warranty: 1 year parts & labor

96700

AVAILABILITY: 120V 230V

Electric Citrus Juicer

3 Reinforced Reamers - Small for lemons and limes, medium for oranges, and large for grapefruits. Each reamer has a stainless steel insert for durability.

Quiet Motor - With its exceptionally quiet motor, the 96700 is a welcome addition to any establishment.

Extra-Tall Spout - Juice spout is a full 8.5"/ 21.6 cm from the counter to allow juicing into a variety of containers.

Low Center of Gravity - Makes the juicer less prone to tip over.

Durability - Heavy-duty metal housing, durable strainer, and reamers.

Specifications:

Standard: Unit comes with extra-large stainless steel bowl, acid-resistant cast aluminum base, ABS plastic strainer, and 3 reamer sizes

Controls: On/off push-button switch

Weight: 30 lbs / 13.6 kg (shipping)

Global Warranty Coverage

Hamilton Beach® Commercial stands behind its global platform of products worldwide. We understand that your foodservice equipment is a crucial element to the profitability of your business. If you ever have an issue, you need service that is quick, convenient and dependable.

FOR OUR U.S. CUSTOMERS:

For qualifying products, please follow this easy 3 step process:

1. Dial 1-866-285-1087 to speak to a member of our highly trained technical services staff (M-F 8am-5pm EST). We will make an initial phone diagnosis.
2. If it is determined that minimal on-site maintenance cannot be performed, Hamilton Beach® Commercial will ship a replacement product to your location.
3. Once the replacement unit is received, you send the troubled unit back to Hamilton Beach® Commercial (we will provide the box and supporting materials to return the unit and we pay the freight cost for the returned unit).

For all other products, please call 1-866-285-1087 to receive assistance on your parts and labor warranty.

Note: Limitations and exclusions apply. See operation manual for complete details. Express Care is only available to end users located in the continental US, Alaska and Hawaii.

FOR OUR GLOBAL CUSTOMERS:

Hamilton Beach® Commercial has a network of highly trained service companies in over 60 countries worldwide.

We provide 24/7/365 support via our dedicated technical services website which includes:

- detailed troubleshooting and repair instructions
- drawings with exploded view
- recommended parts lists
- registered service centers by country
- operation manuals and agency certifications

Our technical services team, based in North Carolina USA, offers a variety of training options, including web-based training.
