# BUFFETGATHERINGS

A MAR AND AND AND

DO

## Building a Buffet

A buffet is about more than just food - it's about having the right equipment for the job. Everything from induction and chafers to display stands, beverage stations and serving dishes are vital components in providing a display that brings the full flavor and experience of your establishment to your diners as well as encourages proper flow.

## March THE DON BRAND

Let DON come to your table! When it comes to buffet displays, you need products that your staff and customers can depend on. Whether it's a chafer, a serving platter, dinnerware or fuel, DON Branded items have a proven history of success in any foodservice environment.

## DON Delivers!

It's no secret – delivery has become a force in the industry. In fact, 86% of consumers use off-premise service at least monthly.\* But just because diners are staying home doesn't mean you still can't bring the full experience of your establishment to their doorstep. With the right packaging, transportation and presentation, your customers can feel like they're right at your table within the comfort of their own home.

\*Source: Technomics

## Time to Hit the Road

Transportation is another vital component in a successful off-site service. Maintaining proper temperature, preventing unnecessary spills and keeping harmful contaminants away from your best dishes are crucial elements to consider when transporting food. Using a lightweight food carrier that keeps your culinary creations safe and secure on the road is essential for bringing the in-house dining experience to your customers.

**Cam GoBox<sup>™</sup>** Professional-grade insulated carriers protect food quality and safety while lightening the load for employees. Made of high-tech, expanded polypropylene material that provides thermal insulation; outstanding impact and chemical resistance with a remarkably high strength-to-weight ratio. Holds temperature for up to 4 hours.

**Embrace Coverings** True four-way stretch polyester/Spandex fabric embraces the table for a snug fit that eliminates wrinkles. Easy to install, no measuring required with no pinning or clips. Reinforced plastic feet are sewn in to hold the cover firmly in place, feet also protect linens from contact with rough floor surfaces.

# The Finish Choices You've Been Waiting For are Here!

# What is Hydro-Dipping?

Hydro-dipping – also known as hydrographics, immersion printing or water transfer imaging - is a method of applying printed designs to three-dimensional surfaces. This process can be used on a variety of materials.

In the process, a poly-vinyl alcohol hydrographic film, which has been printed with the graphic image to be transferred, is carefully placed on the water's surface in a dipping tank. The surface tension of the water allows the pattern to curve around any shape. The ink adheres to the product and will not wash off.

The final result adds new dimension and a unique quality to the standard stainless options of beverage ware.

Cold Beverage Dispensers These beverage dispensers suit any décor. "Hydro-Dipped" finishes with the look of marble or wood-tone add distinction to your presentations. Stainless steel base and lid; self-storing BPA-free clear plastic tank with removable infuser and ice tubes. 3 gal, 11"L x 12"W x 22"H. Dishwasher-safe container; hand wash base and lid.

1143471 Light Wood Dispenser, 1 ea

1143470 Dark Wood Dispenser, 1 ea

**1143472** Travertine Marble Dispenser, 1 ea

Stainless-Lined Servers The distinguished finishes on these servers - choose the look of stone, wood, or leather - will enhance your service. "Hydro-dipped" finishes are enhanced by polished chrome accents. Elegant styling and shape with flip-top lid. Keeps liquids hot or cold for 4-6 hours. Use them not only for beverages but also for creamers, soups, sauces and more. 1 L, 6"L x 43/4"W x 81/2"H. Hand wash only.
