Choosing the Right Knife

Knives are the most important and most used tools in a busy kitchen. Specialized knives used for the right application make food preparation safe and easy.

Boning Knife

The curved feature gives added flexibility for separating skin and bones from fish or raw meat

Cook's Knife

For coarse or fine chopping, dicing and mincing of any kind of food. The deep handle grip is designed to protect the knuckles.

Scalloped Utility Knife

Does everything from prepping vegetables and meat, to spreading condiments and cutting sandwiches.

Ergonomic, non-slip handles with professional quality, high carbon and easy to sharpen stainless steel blades

Duo-Edge Roast Slicer

Hollow-edge blade reduces the drag on the knife. The tiny grooves reduce friction allowing food to slide off the knife without sticking.
